Cybersecurity Professional Statement

I manage organizational systems and work to maintain core security principles including confidentiality, integrity, and accessibility.

I am Passionate about cybersecurity and enjoy creating solutions that can positively impact an organization and the people it serves.

Strengths:
- Problem Solving
- Cooperative
- Driven
- Curious

Values:
- Environment
- Culture
- Teamwork

My interest in cybersecurity stems from when I was young. I've always been curious about technology and solving problems. I've also always wanted to be on the ethical side of the fight and not become one of the bad guys.
